

# Fashion and Textile Management

## Transfer Requirements

- ✓ English Composition
- ✓ Calculus (MA 131 or MA 141)
- ✓ Chemistry (CH 101/102)
- ✓ GPA requirement: 2.8+

The most competitive applicants will have completed both Chemistry and Calculus, however, a student who has completed at least one of these will still be considered. **Please Note: Statistics cannot be used to meet the Math requirement.**

## Transfer Admission Review Process

NC State Undergraduate Admissions employs a holistic approach in reviewing transfer students' applications and considers a range of accomplishments and qualifications. While competitive transfer applicants must meet the following, these alone do not guarantee admission:

- Strong cumulative GPA for all transferable college work previously attempted
- 30 semester hours (or 45 quarter hours) of transferable credits (Qualifying AP scores can be used to meet transfer admission coursework requirements.)
- Eligibility to return to each institution previously attended
- UNC-system Minimum Course Requirements, if under 21 years old or have less than 24 transferable hours at the time of the application
- Attempted coursework through NC State University's Non-Degree Studies Program (NDS) must have a minimum GPA of 2.0 or higher in order to be considered for admission

GPA's are calculated based on all transferable-types of courses attempted. Courses repeated at previous institutions are calculated with the original grades earned. We will exclude the two lowest grades below a C- when calculating the overall cumulative GPA from all transferable coursework attempted outside of NC State University.

**Please note:** Students taking college-level courses while in high school (dual enrollment), including early college high schools, are freshman applicants for admission purposes.

Transfer applicants who have attempted <30 hours must provide an official high school transcript, GED or Adult High School diploma and official ACT or SAT score.

Foreign language proficiency is a General Education Requirement at NC State. Students may satisfy that requirement through completion of two years of a foreign language in high school (both years in the same language with a grade of "C" or better for each year before high school graduation). Students who have not fulfilled the proficiency requirement while in high school must complete foreign language proficiency through the FL 102 level before graduation.

## Course Options for Prospective Transfer Student

Determine which highlighted course options can transfer to NC State from your institution by using the [NC State Undergraduate Admissions transfer course equivalencies database](#). You should also use this resource as you make plans to complete any transfer admissions requirements.
